

**TASKI<sup>®</sup>**

## TASKI<sup>®</sup> Solutions For Kitchen Floors

TASKI<sup>®</sup> machines offer advanced cleaning technology, ergonomic design, ease of use and low maintenance – increasing efficiency and ROI. When used with Suma<sup>®</sup> Bio-Floor<sup>®</sup> and degreasers, slippery grease build-up is virtually eliminated. Plus, drain cleaning is more efficient than ever with the powerful action of Suma<sup>®</sup> ElimineX<sup>®</sup> D3.1.

- Patented squeegees and direct pickup leave floors cleaner and dryer, reducing extra labor associated with trail mopping and baseboard cleaning while reducing the risk of slip and falls.
- TASKI<sup>®</sup> IntelliFlow™ and IntelliTrail<sup>®</sup> technologies ensure proper cleaning while reducing water/chemical usage, water trails, and labor costs while optimizing equipment utilization.
- Diversey degreasers and cleaners make ideal teammates for TASKI<sup>®</sup> machines. Together, they keep floors cleaner, reduce slip-fall accidents and reduce grease build-up.
- TASKI<sup>®</sup> machines' ergonomic design and safety features provide extra protection and comfort for operators.
- Superb maneuverability and braking reduce the possibility of accidents in operation. Likewise, batteries are isolated away from liquid tanks, out of reach during normal operation.
- Modular machine design incorporates fewer parts for greater reliability and durability, plus less frequent and easier maintenance.

## **TASKI®** SOLUTIONS FOR KITCHEN FLOORS

### **TASKI® swingo® 350B and 350E**

Ultra-compact upright auto scrubbers with a low machine profile. Handle folds backwards for easy access under tables or racks. Maximum scrubbing action and innovative V-shaped squeegee deliver enhanced floor appearance, cleaning consistency and excellent drying results.

### **TASKI® swingo® 455B**

Machine options such as the TASKI® swingo® 455B enable quick, efficient cleaning of kitchen floors and prevent slippery grease build up. These machines are designed for quick set-up, ergonomic operation, high productivity and low maintenance.

### **TASKI® ergodisc 200**

This single-disc offers quiet, comfortable cleaning and is ideal for deep-cleaning.

### **Suma® Bio-Floor® Cleaner D3.7**

A bacteria-enhanced, no-rinse floor cleaner with solvents. Its residual cleaning effect on quarry tile floors that can last for days. Removes grease build up that causes slip-fall accidents.

### **Suma® Degreasers**

These powerful cleaners contain the ideal blend of surfactants for superior degreasing of most hard surfaces in food service environments.

### **Suma® ElimineX® D3.1 Foaming Drain Cleaner**

This chlorinated high-alkaline liquid drain cleaner with clinging foam delivers superior drain cleaning.

Outperforms manual cleaning, easy to use for maximum productivity. Great for fast kitchen clean-up, especially in tight spaces and under tables and storage racks.

The TASKI® patented V-shaped squeegee enables excellent water pick-up on the floor.

TASKI® machines are engineered for easy operation and low-maintenance.

The ideal choice for periodic deep cleaning for grout and many other floor cleaning tasks.

Suma® Bio-Floor® is the ideal partner to TASKI® autoscrubbers in keeping kitchen floors clean and reducing slip-fall accidents.

These degreasers cut through grease and penetrate and lift off soils, then they rinse off easily without leaving residues.

Easier to use, more effective and delivers up to 30% savings over traditional drain cleaning methods.
