

**TASKI®**

## **TASKI® Solutions For Atriums, Cafeterias And Large Area Floors**

TASKI® machines offer advanced cleaning technology, ergonomic design, ease of use and low maintenance.

These features increase efficiency, efficacy and return on investment.

### **Key Advantages:**

- Intelligent design and easy cleaning reduce the possibility of equipment acting as a reservoir for pathogens.
- Patented squeegees and direct pickup leave floors cleaner and dryer with no trail mopping or baseboard cleaning.
- TASKI® IntelliFlow™ and IntelliTrail® technologies ensure proper cleaning while reducing water/chemical usage and labor costs and optimizing equipment utilization.
- Operator comfort and safety are engineered into every TASKI® machine. Advanced technology for maneuverability and braking reduces the possibility of accidents in operation. Batteries are isolated away from liquid tanks, out of reach during normal operation.
- Modular machine design incorporates fewer parts for greater reliability and durability, plus less frequent and easier maintenance.

## TASKI® Solutions for Atriums, Cafeterias And Large Area Floors

855B

1255B

### TASKI® swingo® 855B and 1255B Mid-Sized Walk-Behind Autoscrubbers

These auto scrubbers balance maneuverability and productivity. A dual-axle system allows these machines to literally turn on the spot.

Machines engineered for productivity, with easy operation and maintenance, plus excellent cleaning and drying results.

1650B

1850B

### TASKI® swingo® 1650B and 1850B Large Walk-Behind Autoscrubbers

Newly improved, large, walk-behind auto scrubbers provide long work times and brushes that perfectly follow the floor profile for outstanding soil removal.

TASKI® Autoscrubber productivity features, combined with larger scrub paths for even greater large area efficiency.

2100micro

2500B

### TASKI® swingo® 2100micro and 2500B Ride-On Autoscrubbers

These auto scrubbers balance maneuverability and productivity. A dual-axle system allows these machines to literally turn on the spot.

Machines engineered for productivity, with easy operation and maintenance, plus excellent cleaning and drying results.

XP-R

XP-M

### TASKI® swingo® XP-R and XP-M Stand-On Autoscrubbers

The new generation of TASKI® swingo® XP machines delivers the comfort of stand-on cleaning with all-wheel steering and unmatched visibility around the machine.

swingo® XP-R provides round disc cleaning for locations requiring intensive heavy duty cleaning.  
swingo® XP-M offers micro rotational cleaning for locations where maximum autonomy is ideal.

SWINGOBOT 1650

DUOBOT 1850

### TASKI® Intellibot® SWINGOBOT 1650™/ DUOBOT 1850™ Robotic Autoscrubbers

These autonomous hard surface scrubbers improve cleaning consistency and reduces cleaning costs.

TASKI® robotics solutions can double productivity, reduce water consumption and differentiate your organization.
